

Lisbon Polyphenols Committee **awarded Milne Fruits**, managed by Pr **David Wyckoff, CEO** during

ISANH Lisbon Polyphenols 2014

, the world's largest **congress on polyphenols applications**

, which was held in

Lisbon

, on

June 4 to 6, 2014. Milne Fruits

was awarded for

their Innovative Products.

Milne Fruit Products, an industry leader in creating fruit juices, concentrates and purees for the industrial food and beverage markets has introduced cucumber, pumpkin, purple cabbage and red beet to its growing line of vegetable juice concentrates.

These innovative new products offer rich color and unique tastes for a wide array of bases,

beverages and blends. Ideal for health and wellness consumer products, the new cucumber juice is a good source of vitamin K and both the pumpkin, purple cabbage and red beet concentrates are good sources of vitamin C. All have great natural color and are extremely low in calories making for a healthy attribute to any food or beverage products.

Milne's vegetable juices and concentrates are made to the highest quality standards in the industry and the company is certified by WSDA, USDA, JAS, BRC and OU Kosher. Milne's entire line of fruit and vegetable juices, concentrates and purees are 100% all-natural with no additives.
